Scope & scoring

Carter County Sheriff's Office, Missouri

Review: 2025-01-01 to 2026-10-06. Generated: 2026-10-06.

Official site: <https://www.cartercountymosheriff.org/>. ORI: MO0180000.

Reviewed-evidence score: NR. Coverage: 0% (0/20 checks). Public sentiment: NR.

This is TCF's independent editorial draft. It is not an official agency rating, an externally validated instrument, or an overall department-performance grade. A high score on a small subset of checks does not establish good conduct across the agency. Read score and coverage together.

The score is earned points / possible points on assessed checks x 100, rounded half up. Each check has five possible points. NR checks are excluded from that denominator and remain visible in coverage. Budget, staffing, reported crime and comment sentiment do not automatically add conduct points.

Published method and display addendum

TCF Method 2.0 draft: 5 = full anchor met; 2.5 = affirmative partial anchor met; 0 = affirmative failure evidence; NR = unresolved. The retained anchors appear with every check below. Workflow display addendum 1.0 converts the rounded assessed score to a stamp: A 90-100, B 80-89, C 70-79, D 60-69, F 0-59; no assessed checks = NR. This letter describes reviewed evidence only. Different subsets and dates are not directly comparable.

Agency response

Not requested by TCF for this draft. Existing public agency statements are attributed to their published sources; no right-of-reply request was sent.

Limitations

- All 20 checks are NR: accessible evidence did not satisfy the scoring anchors. Zero coverage is not a zero performance score or proof of noncompliance.
- The review covers January 1, 2025 through October 6, 2026 (America/Chicago). Historical court and financial material does not score current personnel.
- Official-site maintenance limited forms, staff and operational-page review. Current internal-affairs, force, training and records-request files were unavailable.
- Case.net returned 403. Indexed court discovery was not exhaustive and cannot establish an absence of lawsuits or complaints.
- Primary staffing, reserves, current adopted budget, FBI offense totals and reporting months remain unverified. Secondary staffing figures are leads only.
- The official 2025 traffic-stop file was retrieved October 5; its Carter County excerpt was reviewed October 6. Current web retrieval was too large to reopen.
- Sentiment is NR: 70 reviewed comments yielded 13 eligible accounts from one agency discussion. Hidden comments, unknown ranking and source concentration limit reliability.
- Comments are opinions, not verified misconduct evidence. Raw text and account mappings remain in the private audit; public coding reasons omit names.
- The badge is the office's authentic public profile image, retained with its white background. No agency contact or external publication occurred.

Constitutional policing

0/4 checks assessed. No assessed points; category NR. 0% category coverage.

CP1 - Rights-related policies - NR

Full (5): Current reviewed directives address detention grounds, search authority and consent safeguards, with effective dates.

Partial (2.5): Reviewed directives affirmatively cover a narrower stated set of these safeguards.

Application: No current agency detention, search or consent directive was accessible. General public FAQs do not establish the required rights safeguards. [S03,S20]

Assessed scope: Carter County Sheriff's Office, Missouri; 2025-01-01 through 2026-10-06; no assessable current evidence

CP2 - Rights-related training - NR

Full (5): Completion records identify the relevant rights curriculum, covered personnel and review-period completion for the defined required population.

Partial (2.5): Records establish completion for a clearly identified subset, with the denominator and remaining completion status known.

Application: No roster-linked rights curriculum completion records with a defined required population were located. [S20]

Assessed scope: Carter County Sheriff's Office, Missouri; 2025-01-01 through 2026-10-06; no assessable current evidence

CP3 - Compliance reviews - NR

Full (5): A completed, dated review of stops, searches or custody states its sample, tests, findings and management response.

Partial (2.5): A completed, explicitly limited review states its sample and findings but does not establish the full agency review process.

Application: The 2025 traffic-stop table is descriptive reporting, not a completed review stating compliance tests, findings and a management response. No qualifying review was located. [S07]

Assessed scope: Carter County Sheriff's Office, Missouri; 2025-01-01 through 2026-10-06; no assessable current evidence

CP4 - Correction of established violations - NR

Full (5): A documented response to an established rights violation was implemented and follow-up checked whether the remedy worked.

Partial (2.5): A specific remedy was demonstrably implemented in response to an established finding; effectiveness has not been checked.

Application: No current implemented remedy and follow-up tied to an established rights violation was verified. Historical court and licensing material cannot supply this evidence. [S11,S12,S13]

Assessed scope: Carter County Sheriff's Office, Missouri; 2025-01-01 through 2026-10-06; no assessable current evidence

For every check, zero requires affirmative failure evidence; non-discovery is NR. Written safeguards do not establish implementation.

Conduct & accountability

0/4 checks assessed. No assessed points; category NR. 0% category coverage.

AC1 - Complaint access - NR

Full (5): A published process identifies intake options, anonymous complaints, a responsible reviewer and a result-notification target.

Partial (2.5): The reviewed published process provides an intake route but expressly describes fewer of the listed access and review features.

Application: The indexed complaint-form lead could not be opened because the forms page returned maintenance. The reviewed FAQ permits anonymous crime tips, but does not establish a personnel-complaint intake process. [S03,S04]

Assessed scope: Carter County Sheriff's Office, Missouri; 2025-01-01 through 2026-10-06; no assessable current evidence

AC2 - Completed investigations - NR

Full (5): A defined complaint register records receipt, closure, final findings and performance against stated investigation targets.

Partial (2.5): An identified closed-case sample records dates and findings sufficient to assess completion and timeliness for that sample.

Application: No defined closed-complaint register or dated closed-case sample with findings and investigation targets was reviewed. [S04,S20]

Assessed scope: Carter County Sheriff's Office, Missouri; 2025-01-01 through 2026-10-06; no assessable current evidence

AC3 - Explained disciplinary decisions - NR

Full (5): Final decisions in a defined case set explain the findings, applicable rules, sanction reasoning and known appeal outcomes.

Partial (2.5): At least one authenticated reasoned discipline decision meets the core finding/rule/reasoning requirements, but the broader decision pattern is unresolved.

Application: No current authenticated reasoned agency discipline decision was reviewed. Historical criminal sentences and license-status listings are distinct processes. [S11,S12]

Assessed scope: Carter County Sheriff's Office, Missouri; 2025-01-01 through 2026-10-06; no assessable current evidence

AC4 - Corrective follow-up - NR

Full (5): Records link established misconduct findings to implemented corrective actions and a completed effectiveness review.

Partial (2.5): A specific corrective action responding to an established finding is verified as implemented, without an effectiveness review.

Application: No implemented corrective action linked to a current established misconduct finding was verified. County financial management responses do not establish personnel misconduct follow-up. [S06]

Assessed scope: Carter County Sheriff's Office, Missouri; 2025-01-01 through 2026-10-06; no assessable current evidence

For every check, zero requires affirmative failure evidence; non-discovery is NR. Written safeguards do not establish implementation.

Transparency & records

0/4 checks assessed. No assessed points; category NR. 0% category coverage.

TR1 - Policy disclosure - NR

Full (5): Officially published operational texts cover stops/searches, force and internal investigations, with effective or revision dates.

Partial (2.5): At least one of those operational policy texts is publicly available with an effective or revision date, as a clearly limited publication set.

Application: No publicly reviewed stop/search, force or internal-investigation policy text with an effective or revision date was available. [S20]

Assessed scope: Carter County Sheriff's Office, Missouri; 2025-01-01 through 2026-10-06; no assessable current evidence

TR2 - Complaint-outcome reporting - NR

Full (5): For the latest completed year, a public report identifies agency/unit scope, complaint sources, findings, misconduct types and resulting action categories.

Partial (2.5): A published report for an identified unit/year gives complaint sources and findings, but the reviewed report omits misconduct types or action categories.

Application: No 2025 scoped complaint-outcome report identifying complaint sources and findings was located in accessible records. [S04,S20]

Assessed scope: Carter County Sheriff's Office, Missouri; 2025-01-01 through 2026-10-06; no assessable current evidence

TR3 - Force-outcome reporting - NR

Full (5): A public period-specific report identifies force categories, incident counts, scope, review outcomes and corrective-action categories.

Partial (2.5): A reviewed, scoped force report provides incident totals but omits review outcomes or corrective-action categories.

Application: No period-specific force report with agency or unit scope and incident totals was reviewed. Traffic-stop statistics are not force data. [S07,S20]

Assessed scope: Carter County Sheriff's Office, Missouri; 2025-01-01 through 2026-10-06; no assessable current evidence

TR4 - Records-request handling - NR

Full (5): A defined complete log permits assessment against published response targets and shows timely handling with explained exceptions.

Full (5): A reviewed current directive addresses necessity/proportionality, intervention and medical assistance.

Partial (2.5): A reviewed current directive affirmatively addresses only a stated subset of these safeguards.

0/4 checks assessed. No assessed points; category NR. 0% category coverage.

TS1 - Written sworn training requirements - NR

Full (5): An official description requires academy/entry training, field evaluation and recurring in-service training for full-time sworn and reserve personnel.

Partial (2.5): An official description specifies entry training or continuing training, but explicitly describes only one stage or a narrower personnel group.

Application: No current agency description establishing sworn entry, field-evaluation or recurring training requirements was reviewed. A grant designation and school-employee app instruction do not establish these requirements. [S08,S10]

Staffing, budget & crime context

Full-time sworn

NR - current filled count not primary-verified [S05,S15,S17]

PoliceCensus reports 9 full-time officers and 8 civilians for 2025. Treat this as an unverified lead until the FBI employee return is obtained; do not infer filled positions from web staff photographs.

Reserve officers

NR - no current filled reserve roster verified [S05]

Reserve personnel cannot be inferred from sworn totals or website job titles.

Annual operating budget

NR - 2025/2026 adopted sheriff operating budget not verified

Reviewed 2023 actual spending is historical and spans separate funds. No current comprehensive sheriff operating budget or capital total was obtained.

2023 General Revenue sheriff spending

\$182,442 actual disbursements; \$186,970 budget; General Revenue sheriff line only [S06]

Historical fiscal-2023 line, not a current annual agency total. Separate jail, dispatch, sales-tax and special-purpose funds are excluded; no unsupported aggregation made.

FBI UCR

NR - 2025 and 2026 violent/property offense totals and reporting months not verified [S15,S16]

ORI MO0180000 is an identity match, not evidence of complete reporting. No zero substitution and no complete-year comparison made.

2025 traffic-stop reporting

160 stops; 14 searches; 3 contraband finds; 7 stop-related arrests; 13 citations [S07]

Missouri vehicle-stop return only. These counts are not all-crime totals, violent/property offenses or evidence that individual stops complied with policy.

Keep authorized and filled positions separate. Distinguish sworn and civilian personnel and dispatch scope. Identify adopted budgets versus actual spending and capital. Missing crime months are not zero. Partial-year counts are not compared directly with complete years. Crime is reported community activity, not a misconduct measure.

Findings & outcomes

1. Historical federal sentencing of former sheriff and deputy

COURT DECISION | 2012-07-09 | [S11]

DOJ reported former Sheriff Tommy Lee Adams received a 120-month sentence for four firearm felonies and former Deputy Steffanie Kearbey received 60 months for two stolen-firearm felonies. Sentences on each person's counts ran concurrently. The announcement describes earlier misconduct, not acts of the current administration.

Scope: Former officials only; outside the 2025-2026 review window; no current check scored from this event.

2. County financial audit reports historical accounting findings

OTHER VERIFIED CONTEXT | 2026-03 publication; fiscal 2023 | [S06]

The county financial audit identified budget compliance, interfund transfer classification and federal-award schedule deficiencies. Its responses describe management plans or assertions; this review did not verify current remedial effectiveness. These countywide fiscal findings are not sustained officer-conduct findings.

Scope: County government financial systems in 2023; audit published within the review window.

3. State designation and reported technology grant

OTHER VERIFIED CONTEXT | 2025; grant announcement 2025-10-03 | [S08,S09]

DPS lists Carter County as a 2025 Blue Shield community. KWOC attributed to Sheriff Bradwell a \$50,000 technology grant selection for items including radios and laptops. Grant receipt and expenditures were not independently reviewed.

Scope: Favorable program context; not accreditation, a training-completion audit or a conduct ruling.

4. Reported East Carter school-safety partnership

AGENCY STATEMENT | 2026-08-18 | [S10]

KFVS reported that East Carter County schools and the sheriff's office introduced MyFlare alerts connecting school employees to dispatch, including live camera information. The report describes instruction for school employees. No independent outcome evaluation or sworn training roster was reviewed.

Scope: Service initiative reported by local news and attributed to agency/school officials.

5. Historical names appear on current POST status list

LICENSING DECISION | 2026-09-30 list update; decision dates unspecified | [S11,S12]

POST lists Tommy L. Adams and Steffanie M. Kearbey as Revoked. This roster is a license-status source, not the underlying reasoned orders. The update date does not date either revocation.

Scope: Historical names; list does not establish current agency staffing or a complete personnel clearance.

6. Different-agency historical case excluded from scoring

COURT DECISION | 2021-03-29 | [S13]

In Mesey v. City of Van Buren, Document 68, the court granted summary judgment to Roper, the City of Van Buren and Alonzo Bradwell. Bradwell appeared in his Van Buren police role; the case is outside this agency and review window.

Scope: Exclusion note to prevent misattributing a same-name search result to present Carter County conduct.

Public sentiment & audit

Result: NR. 70 comment records reviewed; 13 eligible account-platform units: 11 positive, 0 mixed, 2 negative. 50 records excluded; 7 held. 13 eligible statements before account aggregation. 1 discussions; 1 independent publishers.

Collection rule: Review comments dated January 1, 2025 through October 6, 2026. Search exact agency and Missouri/Van Buren variants across Facebook, Instagram, TikTok, Threads, X/Twitter, YouTube and Rumble, with neutral, favorable and adverse query families and independent local news sources. Open each material matching discussion found in the first two varied discovery searches per platform, following material new leads. Collect complete accessible in-window comment discussions in chronological order where available; log actual sort, loaded range and omissions. If more than 200 in-window comments appear in one discussion, apply a fixed newest-first 200-comment cap uniformly and record truncation. Evaluate original comments and replies in context; do not count search snippets, post text, reactions or unverified dates/targets. Continue across sources even if minimum sample is reached; retain latest eligible account-platform evaluation.

Coverage: No-API web discovery attempted all seven required platforms plus balanced local-media leads. One Facebook discussion supplied 70 captured comments/replies, with dates from April 8, 2025 through July 30, 2026; 13 eligible distinct account-platform entries (11 positive, 2 negative), 50 excluded and 7 held. The page displayed 83 comments; hidden/omitted comments were not fully captured, and the default sort was unspecified. Expanded all observed numbered reply controls; a hidden-comments control remained. No chronological or complete-thread claim is made. The separate badge photo displayed no comments. Duplicate DOM copies were removed by comment/reply ID; latest eligible account-platform evaluation retained. Review found no adequate basis to authenticate a coordinated campaign, but one arrest discussion strongly concentrates selection and cannot represent residents. Comment timestamps are page-displayed times without a verified timezone; all are safely inside the date window. No social API, search snippet, reaction or share was counted as an opinion.

NR reason: Fewer than 30 eligible account-platform entries

NR reason: Fewer than three distinct post discussions

NR reason: Fewer than two independent publishing sources

NR reason: Only one agency-controlled discussion, fewer than 30 eligible accounts, and incomplete default-ranked thread capture; independent-source and reliability requirements not met.

Minimum: 30 eligible account-platform units, three distinct post discussions, two independent publishing sources, and completed reliability review. Formula: $1 + 99 \times (\text{positive} + 0.5 \times \text{mixed}) / N$, rounded half up. The minimum is an editorial coverage rule, not a statistical guarantee. This convenience sample is not a resident-trust percentage. Only the latest eligible substantive evaluation per account-platform counts; mixed requires both favorable and unfavorable evaluation in that retained comment. Account identity is not inferred across platforms. Views, likes and shares do not count.
