Scope & scoring

Winona Police Department, Missouri

Review: 2025-01-01 to 2026-10-05. Generated: 2026-10-05.

Official site: Not verified. ORI: MO1020200.

Reviewed-evidence score: NR. Coverage: 0% (0/20 checks). Public sentiment: NR.

This is TCF's independent editorial draft. It is not an official agency rating, an externally validated instrument, or an overall department-performance grade. A high score on a small subset of checks does not establish good conduct across the agency. Read score and coverage together.

The score is earned points / possible points on assessed checks x 100, rounded half up. Each check has five possible points. NR checks are excluded from that denominator and remain visible in coverage. Budget, staffing, reported crime and comment sentiment do not automatically add conduct points.

Published method and display addendum

TCF Method 2.0 draft: 5 = full anchor met; 2.5 = affirmative partial anchor met; 0 = affirmative failure evidence; NR = unresolved. The retained anchors appear with every check below. Workflow display addendum 1.0 converts the rounded assessed score to a stamp: A 90-100, B 80-89, C 70-79, D 60-69, F 0-59; no assessed checks = NR. This letter describes reviewed evidence only. Different subsets and dates are not directly comparable.

Agency response

Not requested by TCF for this draft.

Limitations

- Agency identity is verified as Winona, Shannon County, Missouri (ORI MO1020200), using S01-S02. A standalone agency website and authentic current badge were not verified; no substitute badge was used.
- Scoring window is January 1, 2025-October 5, 2026. Calendar 2025 is the completed-year comparison period; 2026 is partial. Older financial, grant and audit material is contextual only.
- All 20 conduct checks are NR. Zero percent means scoreable-check coverage, not an absence of research or verified public context. No failing score is inferred from missing records.
- The state vehicle-stop report documents reported activity, not case-level constitutional compliance, a supervisory audit, complaint outcomes or use of force. It cannot satisfy those anchors by itself.
- The reported Brewer lawsuit concerns allegations against Shannon County personnel. No primary merits ruling or later disposition was obtained; no liability, licensing or employment outcome is inferred.
- Discovery produced many Winona, Minnesota and Mississippi results, which were excluded. Social search produced no reviewable eligible comment sample. Coverage is limited, not exhaustive.
- Official crime, court and financial portals were partly inaccessible or required dynamic rendering. A reader/access failure does not mean the agency refused a records request. No agency response or records request was solicited.

Constitutional policing

0/4 checks assessed. No assessed points; category NR. 0% category coverage.

CP1 - Rights-related policies - NR

Full (5): Current reviewed directives address detention grounds, search authority and consent safeguards, with effective dates.
Partial (2.5): Reviewed directives affirmatively cover a narrower stated set of these safeguards.

Application: Current Winona detention, search-authority and consent directives with effective dates were not located. State law or another Winona department's manual cannot substitute.

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

CP2 - Rights-related training - NR

Full (5): Completion records identify the relevant rights curriculum, covered personnel and review-period completion for the defined required population.

Partial (2.5): Records establish completion for a clearly identified subset, with the denominator and remaining completion status known.

Application: No dated rights-training completion register or defined required-personnel denominator was obtained.

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

CP3 - Compliance reviews - NR

Full (5): A completed, dated review of stops, searches or custody states its sample, tests, findings and management response.

Partial (2.5): A completed, explicitly limited review states its sample and findings but does not establish the full agency review process.

Application: The 2025 vehicle-stop tables summarize reported activity. No completed review testing a defined sample of stops/searches for compliance, with findings, was obtained. [S03]

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

CP4 - Correction of established violations - NR

Full (5): A documented response to an established rights violation was implemented and follow-up checked whether the remedy worked.

Partial (2.5): A specific remedy was demonstrably implemented in response to an established finding; effectiveness has not been checked.

Application: No implemented and traceable remedy for an established Winona rights violation was obtained. The reported chief's lawsuit alleges conduct by another agency and supplies no qualifying finding. [S04]

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

For every check, zero requires affirmative failure evidence; non-discovery is NR. Written safeguards do not establish implementation.

Conduct & accountability

0/4 checks assessed. No assessed points; category NR. 0% category coverage.

AC1 - Complaint access - NR

Full (5): A published process identifies intake options, anonymous complaints, a responsible reviewer and a result-notification target.

Partial (2.5): The reviewed published process provides an intake route but expressly describes fewer of the listed access and review features.

Application: A general agency address and telephone are published, but a Winona misconduct-complaint intake process was not obtained. General contact information alone does not meet the partial anchor. [S01]

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

AC2 - Completed investigations - NR

Full (5): A defined complaint register records receipt, closure, final findings and performance against stated investigation targets.

Partial (2.5): An identified closed-case sample records dates and findings sufficient to assess completion and timeliness for that sample.

Application: No complaint register or authenticated closed-case sample with receipt/closure dates and findings was obtained.

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

AC3 - Explained disciplinary decisions - NR

Full (5): Final decisions in a defined case set explain the findings, applicable rules, sanction reasoning and known appeal outcomes.

Partial (2.5): At least one authenticated reasoned discipline decision meets the core finding/rule/reasoning requirements, but the broader decision pattern is unresolved.

Application: No authenticated Winona final discipline decision containing finding, applicable rule and sanction reasoning was obtained.

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

AC4 - Corrective follow-up - NR

Full (5): Records link established misconduct findings to implemented corrective actions and a completed effectiveness review.

Partial (2.5): A specific corrective action responding to an established finding is verified as implemented, without an effectiveness review.

Application: Older payroll and court-control follow-ups are available, but no review-period misconduct-to-correction record was obtained. Historical city audit corrections do not establish this current agency check. [S05,S06]

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

For every check, zero requires affirmative failure evidence; non-discovery is NR. Written safeguards do not establish implementation.

Transparency & records

0/4 checks assessed. No assessed points; category NR. 0% category coverage.

TR1 - Policy disclosure - NR

Full (5): Officially published operational texts cover stops/searches, force and internal investigations, with effective or revision dates.

Partial (2.5): At least one of those operational policy texts is publicly available with an effective or revision date, as a clearly limited publication set.

Application: No dated Winona operational text for stops/searches, force or internal investigations was obtained. Manuals for Winona, Minnesota were excluded.

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

TR2 - Complaint-outcome reporting - NR

Full (5): For the latest completed year, a public report identifies agency/unit scope, complaint sources, findings, misconduct types and resulting action categories.

Partial (2.5): A published report for an identified unit/year gives complaint sources and findings, but the reviewed report omits misconduct types or action categories.

Application: No 2025 Winona complaint-outcome report with complaint sources and findings was obtained; the latest completed review year remains unassessed.

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

TR3 - Force-outcome reporting - NR

Full (5): A public period-specific report identifies force categories, incident counts, scope, review outcomes and corrective-action categories.

Partial (2.5): A reviewed, scoped force report provides incident totals but omits review outcomes or corrective-action categories.

Application: No scoped Winona force report with period incident totals was obtained. Vehicle-stop arrest totals are not force-incident counts. [S03]

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

TR4 - Records-request handling - NR

Full (5): A defined complete log permits assessment against published response targets and shows timely handling with explained exceptions.

Partial (2.5): A complete assessed log demonstrates a mixed record of timely and late handling, with dispositions documented.

Application: No complete records-request log with response targets, dates and dispositions was obtained. Historical financial statements and web access errors do not establish request-handling performance. [S07,S16]

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

For every check, zero requires affirmative failure evidence; non-discovery is NR. Written safeguards do not establish implementation.

Use-of-force oversight

0/4 checks assessed. No assessed points; category NR. 0% category coverage.

FO1 - Force policy - NR

Full (5): A reviewed current directive addresses necessity/proportionality, intervention and medical assistance.

Partial (2.5): A reviewed current directive affirmatively addresses only a stated subset of these safeguards.

Application: No current Winona directive covering necessity/proportionality, intervention and medical aid was obtained.

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

FO2 - Force reporting requirements - NR

Full (5): A current reviewed directive defines reportable force and requires incident circumstances, injuries and supervisory notification.

Partial (2.5): A reviewed directive establishes reporting but explicitly covers fewer of those documentation requirements.

Application: No current agency force-reporting directive defining reportable force, required details and supervisor notification was obtained.

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

FO3 - Supervisory force review - NR

Full (5): A defined sample has completed supervisory reviews stating evidence examined, policy findings and required action.

Partial (2.5): At least one completed review states evidence and findings for an explicitly limited incident scope.

Application: No completed supervisory force review stating the evidence examined and policy findings was obtained.

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

FO4 - Force-related corrective follow-up - NR

Full (5): Records connect established force deficiencies to implemented remedies and a completed check of effectiveness.

Partial (2.5): A remedy responding to an established force finding is verified as implemented, without an effectiveness check.

Application: No established Winona force deficiency with a documented implemented remedy or effectiveness check was obtained.

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

For every check, zero requires affirmative failure evidence; non-discovery is NR. Written safeguards do not establish implementation.

Training & supervision

0/4 checks assessed. No assessed points; category NR. 0% category coverage.

TS1 - Written sworn training requirements - NR

Full (5): An official description requires academy/entry training, field evaluation and recurring in-service training for full-time sworn and reserve personnel.

Partial (2.5): An official description specifies entry training or continuing training, but explicitly describes only one stage or a narrower personnel group.

Application: The state POST framework was reviewed, but no authenticated Winona description of academy/entry, field evaluation or recurring requirements for its personnel was obtained. A newspaper hiring lead could not be opened and was not scored. [S09]

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

TS2 - Documented training completion - NR

Full (5): Roster-linked records establish completion against the required curriculum and dates for the defined population.

Partial (2.5): Records establish a known completion proportion for an identified population, with remaining completion status known.

Application: No roster-linked required-curriculum completion records or known completion proportion were obtained.

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

TS3 - Supervisory audits - NR

Full (5): A completed supervisory audit identifies scope, findings and action tracking for performance or training oversight.

Partial (2.5): A completed, explicitly limited supervisory audit supplies scope and findings without full action tracking.

Application: No 2025-2026 supervisory performance/training audit was obtained. A historical city payroll audit is not evidence of current operational supervision. [S05]

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

TS4 - Correction of training deficiencies - NR

Full (5): An established training deficiency led to completed remediation and a documented reassessment.

Partial (2.5): Completed remediation responding to an established deficiency is verified, without a reassessment.

Application: No established training deficiency linked to completed remediation and a reassessment record was obtained.

Assessed scope: Winona, Missouri municipal police; January 1, 2025-October 5, 2026; historical material excluded from scoring.

For every check, zero requires affirmative failure evidence; non-discovery is NR. Written safeguards do not establish implementation.

Staffing, budget & crime context

Full-time sworn

NR - current filled roster unavailable [S01,S11]

The state directory identifies a chief, not a full staffing roster. Secondary staffing leads were not reconciled to an official employee return. No current officer count is asserted.

Reserve officers

NR - roster and dates unavailable

No reserve roster or authorized-versus-filled count was obtained. Historical aggregate staffing cannot establish current reserves.

Annual operating budget

NR - 2025/2026 budget not verified [S07,S16]

The reviewed 2021 unaudited city statement has a \$32,732 Police expenditure line and separate payroll/benefit lines. It is neither a current adopted appropriation nor a complete police operating cost.

FBI UCR

NR - 2025 counts/months unverified [S11,S12]

ORI MO1020200 is verified separately. No official 2025 offense table, monthly participation record or employee return was retrieved. The 2026 partial period is also NR; missing data are not zero.

Missouri stops, 2025

741 stops; 25 searches; 6 arrests [S03]

This separate state dataset covers traffic stops reported for 2025. It also lists 384 citations, 30 resident stops and 711 nonresident stops. Stop-associated arrests are not total annual agency arrests. No legal-compliance conclusion follows from these totals.

Keep authorized and filled positions separate. Distinguish sworn and civilian personnel and dispatch scope. Identify adopted budgets versus actual spending and capital. Missing crime months are not zero. Partial-year counts are not compared directly with complete years. Crime is reported community activity, not a misconduct measure.

Findings & outcomes

1. 2025 traffic-stop reporting

OTHER VERIFIED CONTEXT | 2025 reporting year | [S03]

A state-published agency table supplies current activity context. The publication documents reporting, not a completed legal-compliance audit or a finding of misconduct.

Scope: Winona Police Dept.; traffic-stop data only. No conduct points.

2. Reported lawsuit by the police chief

ALLEGATION | 2026-05-19 report; alleged event 2026-02-27 | [S04]

E Communications reports chief Chester Allan Brewer sued Shannon County sheriff personnel over an allegedly retaliatory arrest. TCF did not review the petition or a later ruling; current case disposition is unverified.

Scope: Allegations about county personnel; not a sustained finding against Winona officers. Not scored.

3. Historical payroll correction verified by auditor

OTHER VERIFIED CONTEXT | 2019-05-01 | [S05]

The auditor's December 2018 follow-up sample supported improved timekeeping and pay controls, including police pay tied to actual hours worked. This is favorable historical corrective context.

Scope: City payroll controls, outside 2025-2026. Does not establish current conduct, supervision or training compliance.

4. Historical ticket controls remained unresolved

OTHER VERIFIED CONTEXT | 2019-04-15 | [S06]

The follow-up found police bond-money collection had ended, resolving that control issue. It also found ticket sequence, transmittal and disposition controls remained unimplemented at that time. Present status is unknown.

Scope: Joint police/municipal-court controls; historical audit status, not a current misconduct finding.

5. Historical roadway-safety grant

OTHER VERIFIED CONTEXT | FY2024 | [S14]

MoDOT's Southeast Coalition recipient list names Winona Police Department for radar equipment. Delivery, use and training effectiveness were not assessed.

Scope: Favorable equipment-support context outside review window; no conduct points.

6. Federal forfeiture filing entry requires context

OTHER VERIFIED CONTEXT | 2026-03 report on 2025 filings | [S13]

The State Auditor lists Winona among agencies not filing an equitable-sharing form. Its footnote states that nonparticipation removes the filing requirement. TCF did not establish participation and makes no noncompliance finding.

Scope: Compilation cutoff February 28, 2026; no adverse score.

Public sentiment & audit

Result: NR. 0 comment records reviewed; 0 eligible account-platform units: 0 positive, 0 mixed, 0 negative. 0 records excluded; 0 held. 0 eligible statements before account aggregation. 0 discussions; 0 independent publishers.

Collection rule: Discovery used the exact agency/jurisdiction plus neutral, adverse and favorable topic terms, looking for agency and independent local publishers. Eligible collection requires in-period comments explicitly evaluating Winona, Missouri police with surrounding discussion and date visible. Within each available discussion, review chronological pages consistently; retain the latest eligible substantive evaluation per account-platform. No qualifying discussions were recovered, so no rows were coded.

Coverage: Seven required platforms checked through public indexed discovery; TikTok access restriction recorded. Search ranking and cross-state contamination limit recall. Zero complete discussions, zero comment records and zero eligible units were collected. This is an access-limited absence of a sample, not neutral sentiment.

NR reason: Fewer than 30 eligible account-platform entries

NR reason: Fewer than three distinct post discussions

NR reason: Fewer than two independent publishing sources

NR reason: Collection reliability review incomplete

NR reason: No qualifying comment sample was obtained; minimum account, discussion and independent-publisher gates are unmet, and coordination/reliability cannot be assessed without comment records.

Minimum: 30 eligible account-platform units, three distinct post discussions, two independent publishing sources, and completed reliability review. Formula: $1 + 99 \times (\text{positive} + 0.5 \times \text{mixed}) / N$, rounded half up. The minimum is an editorial coverage rule, not a statistical guarantee. This convenience sample is not a resident-trust percentage. Only the latest eligible substantive evaluation per account-platform counts; mixed requires both favorable and unfavorable evaluation in that retained comment. Account identity is not inferred across platforms. Views, likes and shares do not count.

[S06] Winona Municipal Division - Follow-up Report on Audit Findings, 2019-027

Missouri State Auditor | Document: 2019-04-15 | Retrieved: 2026-10-05 | reviewed

Locator: Printed pp. 3-7: sections 1.2, 1.4 and 2.4 (PDF pp. 4-8)

Scope: Historical municipal-court and police financial/ticket controls; outside review window.

Supports: Police no longer collected bond monies, addressing a control issue. Ticket sequence, transmission and disposition controls remained unimplemented in this follow-up. Current status was not established.

[S07] City of Winona 2021 financial statements (unaudited)

City of Winona / Missouri State Auditor repository | Document: undated | Retrieved: 2026-10-05 | reviewed

Locator: PDF p. 4, Government Funds expenditure statement

Scope: Historical city actuals on modified cash basis; not a current adopted police budget.

Supports: Police is a \$32,732 expenditure line with payroll and benefits shown separately. It cannot be treated as a total annual police operating budget for 2025 or 2026.

[S08] Revoked and surrendered peace officer licenses

Missouri DPS POST | Document: 2026-09-30 | Retrieved: 2026-10-05 | reviewed

Locator: Header and name/status fields; Brewer entries on PDF p. 4

Scope: Statewide name-based list, not an agency roster or full disciplinary docket.

Supports: Reviewed the published license-status resource. Agency employment dates and a complete Winona roster were unavailable, preventing a complete agency-level disciplinary reconciliation.

[S09] Peace Officer Standards and Training

Missouri Department of Public Safety | Document: undated | Retrieved: 2026-10-05 | reviewed

Locator: Program description and links to licensing, training, use-of-force and disciplinary resources

Scope: State regulatory program; no Winona-specific completion evidence.

Supports: Provides the state licensing/training oversight framework and appropriate request destination. This general description does not establish Winona field evaluation, local training requirements or completion.

<https://dps.mo.gov/dir/programs/post/>

[S10] Case.net public case access

Missouri Judiciary | Document: undated | Retrieved: 2026-10-05 | blocked

Locator: Public entry URL

Scope: Official docket access attempt for reported Brewer litigation.

Supports: Read attempt returned HTTP 403; petition, responsive pleadings and current disposition were not obtained.

<https://www.courts.mo.gov/cnet/welcome.do>

[S11] Crime Data Explorer

Federal Bureau of Investigation | Document: undated | Retrieved: 2026-10-05 | partial

Locator: Public application entry page

Scope: Attempted official offense, reporting-month and employment data for MO1020200.

Supports: The accessible text view returned an application shell without agency tables; no 2025 or 2026 counts were verified.

<https://cde.ucr.cjis.gov/LATEST/webapp/>

[S12] Crime Insight / Show-Me Crime

Missouri Department of Public Safety | Document: undated | Retrieved: 2026-10-05 | partial

Locator: Public reporting application entry page

Scope: State crime-reporting portal; no Winona table retrieved.

Supports: Dynamic application supplied no usable agency table in the text view. Missing counts are not zero.

<https://showmecrime.mo.gov/CrimeReporting/CrimeReportingTOPS.html>

[S13] Compilation of 2025 Federal Forfeiture Reports, 2026-030

Missouri State Auditor | Document: undated | Retrieved: 2026-10-05 | reviewed

Locator: Printed pp. 2-4 and 17; Appendix C, row 485 and footnote (PDF p. 18); report dated March 2026

Scope: Filing compilation through February 28, 2026; not an audit of participation or compliance.

Supports: Winona appears among nonfilers. The report expressly says nonparticipating agencies need not file and compliance cannot be inferred from nonfiling. No adverse score assigned.

<https://auditor.mo.gov/AuditReport/ViewReport?report=2026030&token=8566946180>

[S14] Southeast Coalition FY24 Law Enforcement Grant Recipients

Missouri Department of Transportation / Coalition for Roadway Safety | Document: undated | Retrieved: 2026-10-05 | reviewed

Locator: Recipient list, Winona Police Department entry

Scope: Historical equipment-grant context.

Supports: Lists Winona Police Department as a radar recipient. A grant does not establish implementation of the conduct rubric.

<https://www.savemolives.com/mcrs/se-coalition-le-grant-recipients>

[S15] Missouri K-9 grant recipient listing - Bandi

AKC Reunite | Document: undated | Retrieved: 2026-10-05 | reviewed

Locator: BANDI block: location, handler/department and award year

Scope: Historical lead with inconsistent geography; withheld from scored facts.

Supports: Block names Winona Police Department but gives Fair Play, MO as location. Agency/geographic inconsistency remains unresolved; no current K-9 staffing or training claim adopted.

<https://www.akcreunite.org/k9/missouri/>

[S16] Shannon County local-government financial reports search

Missouri State Auditor | Document: undated | Retrieved: 2026-10-05 | partial

Locator: County financial-report search form and dynamic results area

Scope: Repository lookup attempt for current adopted budgets and actuals.

Supports: Retrieved form contained unresolved dynamic result templates. It did not establish absence of filings or supply a current police budget.
