# Scope & scoring

## **Bentonville Police Department, Arkansas**

Agency: Bentonville Police Department. Review: 2025-01-01 to 2026-10-13. Generated: 2026-10-13.

Official site: <https://www.bentonville.ar.gov/1690/Police-Department>. ORI: AR0040100.

**TCF score: 81.3/100. Evidence coverage: 20% (4/20 standards). Public sentiment: NR.**

**TCF Available-Record Grade 1.0 | B - 81.3/100**

**PROVISIONAL - LIMITED RECORD**

**PUBLIC INFORMATION / PROCESS ONLY. CONDUCT NOT ASSESSED.**

The grade describes only the evidence actually assessed against the fixed checks. It does not estimate overall police quality, the share of officers acting properly, resident trust, or future misconduct. Coverage measures assessed rubric weight, not the percentage of incidents or personnel reviewed. These editorial choices have not been statistically validated.

There is no minimum overall/category coverage or incident count for this limited grade. Each observation still needs sufficient evidence. With no assessable check the result is NR. Unknown checks earn no credit and no penalty; a zero rating is assessed and stays in the denominator. A department duty inapplicable to one event remains Unknown unless other evidence supports assessment.

The 20 fixed checks each weigh 5 points. Average distinct event observations within each outcome check; use one current snapshot for each publication check.  $\text{Earned weight} = \text{sum}(5 \times \text{check rating} / 4)$ .  $\text{Score} = 100 \times \text{earned weight} / \text{assessed weight}$ .  $\text{Coverage} = \text{assessed weight} / 100 \times 100$ . Do not average category percentages equally or count multiple articles as separate incidents.

**Calculation:**  $100 \times 16.25 / 20 = 81.3$ . 4/20 checks; 20% rubric coverage.

Use the unrounded score for the letter: A  $\geq 90$ , B  $\geq 80$ , C  $\geq 70$ , D  $\geq 60$ , F  $< 60$ . Display one decimal, adding precision at a boundary so rounding never promotes a grade. With partial evidence the assessed checks determine the effective mix; each assessed check carries 25.00% of this headline result.

**Assessed categories:** Accountability, Transparency, Service and communication

**Unassessed categories:** Conduct, force and custody, Training and supervision

Do not rank departments whose grades cover different checks or sampling frames. A direct comparison needs shared checks and comparable periods, with remaining sampling differences disclosed. A change after regrading or added evidence is not proof of changed department behavior. Prior editions remain archived.

**Revision history:** Rescored the saved October 5, 2026 Bentonville report under TCF Available-Record Grade 1.0 on 2026-10-13. Historical conduct and sentiment evidence retains the 2026-10-04 cutoff; original October 4/5 source dates remain unchanged. Only the expressly bounded public complaint/service pages, 2025 BECC report and 2026 budget chapter were reread on October 13 and have separate source IDs. The old Method 2.0 points were not mechanically translated. The regenerated report's overall evidence cutoff is October 13 solely because of these publication checks; unrefreshed incident and social lanes retain their separately stated historical cutoffs.

## **Selection and evidence limits**

**Population:** Accessible public records retained in the Bentonville report for conduct through 2026-10-04, plus the separately dated bounded publication sets read 2026-10-13.

**Selection:** Preserve all 36 sources and all favorable/adverse/procedural findings from the saved report. Reassess only sufficiently supported checks; for publication components review the named official complaint page, complete BECC summary, full police budget chapter and two linked service routes. No fresh incident, court,

licensing or social search was conducted.

**Limits:** The original public-source selection is a convenience record; no complete operational population, random sample or predeclared conduct sampling frame was retained. New publication snapshots do not extend the historical conduct/incident cutoff. Narrow BECC reporting must not be attributed to sworn patrol.

### Agency response

Not requested or received for the saved draft. No new agency contact was made during migration; public statements remain separately attributed.

### Limitations

- Archive migration, not a refreshed investigation. Conduct and sentiment cutoff remains October 4, 2026; original source rechecks on October 5 remain dated as such. Only named publication sets were reread October 13.
- Four assessable checks concern published intake, a limited BECC outcome report, budget/staffing disclosure and service access. No Bentonville conduct, training-completion or corrective-action outcome check is supported.
- The 2025 BECC report applies to communications-center members only. Seven sustained entries do not identify seven employees or sworn officers, severity, sanctions, or a department-wide misconduct rate.
- Qualified immunity in Crum did not resolve the underlying constitutional question; Haro police claims and Rubio litigation, Epperly final discipline/criminal/licensing outcomes, and cyclist crash outcome remain unverified at the retained cutoff.
- Published safeguards, accreditation, awards, host-course listings and an agency-reported training audit do not establish implementation or roster-linked completion.
- 2026 budget positions and reserve chart are plans; current filled-versus-authorized reconciliation is absent from the bounded police chapter. Source annual staffing and crime snapshots retain original dates and scope.
- Raw Bentonville sentiment records were unavailable. The historical 104-reviewed/4-eligible NR sample is preserved as an archived aggregate; an empty new comment array is not a fresh zero-comment claim.
- No agency request, response invitation, form submission or broad new social/case search occurred during migration.

# Conduct, force and custody

Fixed weight: 35/100. Assessed: 0/7 checks; 0% category coverage. Earned/assessed: 0/0. Category score: NR.

## C1 - Stops and searches - Unknown

**Fixed benchmark:** A documented stop or search complies with its applicable authority and scope.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | Crum resolved qualified immunity without deciding the underlying constitutional question. Haro concerned the crime-lab director and left police claims pending at that order. Partial ALPR drafts are not completed stop/search outcomes. No event can be rated for lawful authority and scope. [S08,S13,S26,S27]

## C2 - Arrests and detention - Unknown

**Fixed benchmark:** A documented arrest or detention has the required basis, duration and process.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | No retained merits finding or complete arrest/detention episode establishes basis, duration and process. The Rubio docket and allegations in other cases do not resolve those elements. [S08,S13,S14]

## C3 - Force justification and proportionality - Unknown

**Fixed benchmark:** A documented use of force meets the applicable necessity and proportionality benchmark.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | No complete force episode, force-review finding or applicable event-date duty is retained. The preliminary patrol-vehicle collision report does not establish a force finding. [S20]

## C4 - Restraint and de-escalation conduct - Unknown

**Fixed benchmark:** A documented encounter follows applicable restraint, intervention and de-escalation requirements in its actual circumstances.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | No complete encounter and restraint/de-escalation requirements are retained. Training facilities, accreditation and unresolved allegations do not establish actual encounter compliance. [S09,S16,S20]

## C5 - Custody and medical care - Unknown

**Fixed benchmark:** A documented custody or medical-care episode meets the applicable safety and care duties.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | No complete custody/medical-care episode or merits finding against this department is retained; separate jurisdictions are not reassigned to Bentonville.

## C6 - Equal treatment - Unknown

**Fixed benchmark:** A documented service or enforcement decision meets the applicable nondiscrimination/equal-treatment benchmark.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | No retained completed equal-treatment finding or sufficiently contextualized enforcement decision establishes the benchmark. Public commentary is not a finding. [S22,S23,S24,S36]

## C7 - Report and evidence integrity - Unknown

**Fixed benchmark:** A documented reporting/evidence episode meets accuracy, preservation and disclosure duties.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | No completed reporting or evidence-integrity episode establishes accuracy, preservation and disclosure duties. ALPR policy concerns remain partly authenticated leads, not established falsification or concealment. [S26,S27,S28]

Unknown means insufficient assessable evidence, not failure or a clean record. Publication findings do not establish operational implementation. The complete fixed anchors are published in the site methodology.

# Accountability

Fixed weight: 25/100. Assessed: 1/5 checks; 20% category coverage. Earned/assessed: 5/5. Category score: 100.0.

## A1 - Complaint intake access - 4/4; 5/5 weight points

**Fixed benchmark:** Published complaint intake is usable for its explicitly identified audience.

**Scope / rationale:** The public complaint page for citizens and internal/external complaints, visible 2026-10-13; publication only, no test of actual handling. | All four fixed components are directly readable on this bounded page. Credit is for published intake safeguards, not their effectiveness or the correctness of the page's separate legal-confidentiality statement. [S37]

**Distinct observations:** 1

**TCF editorial expectation:** Published complaint intake is usable for its explicitly identified audience.

**Locator:** S37: Initiating a Complaint, Investigation and Notification sections, rendered lines 35-78

| Publication component                             | Met | Reviewed evidence                                                                                                                                                                                                     |
|---------------------------------------------------|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Express route for identified audience             | Yes | S37 lines 35-59 expressly accept internal/external complaints and identify citizen telephone, email, in-person, PDF and online routes.                                                                                |
| Recipient and alternate around accused supervisor | Yes | S37 lines 46-52 name four lieutenant recipients, an on-duty supervisor fallback, and email to the Chief or divisional Captains; these provide an alternate beyond an accused immediate supervisor.                    |
| No-identification or third-party handling         | Yes | S37 line 59 says anonymous complaints are investigated in the same manner; line 52 includes complaints through another city department or agency.                                                                     |
| Review stages and result-notification target      | Yes | S37 lines 62-78 describe supervisor investigation, Chief final review, disposition definitions and result notice within 30 days of conclusion/final disposition; the investigation effort target is 90 calendar days. |

## A2 - Investigation quality - Unknown

**Fixed benchmark:** A completed documented investigation addresses the material evidence, competing accounts and relevant issues.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | The BECC statistical summary does not contain investigative evidence, competing accounts or reasoning. A complaint policy describes intended investigation only. [S11,S38,S37]

## A3 - Supported findings and explanations - Unknown

**Fixed benchmark:** A completed finding gives a reasoned conclusion supported by the reviewed evidence.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | Seven sustained BECC entries lack narratives, policy provisions and reasoned decisions. The reported Epperly firing lacks the final discipline file and appeal disposition. Court findings are retained as court findings and do not stand in for the agency accountability decision. [S07,S11,S34,S38]

## A4 - Corrective action and follow-through - Unknown

**Fixed benchmark:** Documented corrective action appropriate to an established issue is completed and followed up.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | No established administrative issue is linked to documented appropriate

correction and completed follow-up. Employment action alone does not establish the remedy or effectiveness. [S07,S11,S34]

### **A5 - Cooperation with external oversight - Unknown**

**Fixed benchmark:** A documented oversight episode shows compliance with the applicable oversight requests and requirements.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | Accreditation and the city-reported CLEST audit do not supply a defined oversight request/response episode; the final licensing record is unverified. [S09,S12,S19,S34]

Unknown means insufficient assessable evidence, not failure or a clean record. Publication findings do not establish operational implementation. The complete fixed anchors are published in the site methodology.

# Transparency

Fixed weight: 20/100. Assessed: 2/4 checks; 50% category coverage. Earned/assessed: 6.25/10. Category score: 62.5.

## T1 - Policy publication - Unknown

**Fixed benchmark:** A bounded reviewed public operational-policy set meets the publication components.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | No complete authenticated current operational-policy text/version set is retained. The dated ALPR copies have authentication or draft-status limits; the complaint page is public process information. No unverified publication absence is scored. [S10,S26,S27]

## T2 - Complaint and force outcome disclosure - 2/4; 2.5/5 weight points

**Fixed benchmark:** A bounded reviewed public outcome-reporting set meets the disclosure components.

**Scope / rationale:** Complete 2025 BECC one-page IA summary only. This is communications-center reporting, not the sworn department complaint/force record. | Two of four fixed reporting components are present in the complete one-page set. The rating describes its reporting content; seven sustained entries are not seven sworn officers, a misconduct rate or proof of severity. [S38]

**Distinct observations:** 1

**bentonville-becc-outcomes-publication-2026-10-13 | 2026-10-13 | 2/4 [S38]**

**TCF editorial expectation:** A bounded reviewed public outcome-reporting set meets the disclosure components.

**Locator:** S38: full one-page PDF visually reviewed, introduction, table and definitions

|------------------------------------------------------|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Defined reporting period and unit                    | Yes | S38 title states 2025 and introductory paragraph and table identify Bentonville Emergency Communications Center members.                                                                                                                                         |
| Complaint counts with final disposition distinctions | Yes | S38 reports seven internal and zero citizen complaints, lists seven cases as sustained, and defines unfounded, sustained, not sustained and exonerated.                                                                                                          |
| Force incidents with review/outcome distinctions     | No  | The entire one-page S38 report has no force-incident section, count or force review/outcome distinction. This is a confirmed omission from this BECC publication only, not a claim that the department publishes no force report.                                |
| Scope, denominator and explanatory limitations       | No  | S38 identifies unit scope but provides no workforce/workload denominator or explanatory reporting limitations. The complete page contains only the counts/table and disposition definitions; it does not explain unique personnel, severity or resulting action. |

## T3 - Budget and staffing disclosure - 3/4; 3.75/5 weight points

**Fixed benchmark:** A bounded reviewed budget/personnel publication set meets the disclosure components.

**Scope / rationale:** Bounded police chapter pp.119-126 of the 2026 annual budget; appropriation and organization publication only. | Three fixed publication components are present. The fourth is absent from the defined chapter; this does not assert that a separate filled roster cannot exist. No operating-performance inference is drawn from budget size. [S39]

**Distinct observations:** 1

| Current fiscal-year police appropriation                             | Yes | S39 p.125 identifies the General Fund Police Department and adopted 2026 expenditures of \$22,104,860.                                                                                                                                            |
| Separated operating/capital detail, current or latest completed year | Yes | S39 p.125 separates adopted 2026 O&M \$21,121,443 from capital \$983,417 and provides current/previous-year detail.                                                                                                                               |
| Sworn/civilian/reserve distinctions                                  | Yes | S39 p.119 identifies 105 sworn, 27 telecommunicators and 17 professional staff; p.126 separately labels sworn, telecommunicators, civilian professional staff, animal services, four reserve officers and a reserve sergeant.                     |
| Dated filled/authorized positions and reconciled service scope       | No  | The complete pp.119-126 budget chapter describes a 2026 organization/position plan and service scope but contains no dated reconciliation of filled versus authorized positions. A fiscal-year organization chart is not a current filled roster. |

### T4 - Handling documented records requests - Unknown

**Fixed benchmark:** An actual documented request is handled accurately under the applicable scope, deadlines and disclosure/exemption duties.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | No actual request/response sequence, response log or adjudicated handling outcome is retained. No TCF request was sent; public forms and retrieval failures do not measure compliance.

Unknown means insufficient assessable evidence, not failure or a clean record. Publication findings do not establish operational implementation. The complete fixed anchors are published in the site methodology.

# Training and supervision

Fixed weight: 10/100. Assessed: 0/2 checks; 0% category coverage. Earned/assessed: 0/0. Category score: NR.

## S1 - Required-training completion - Unknown

**Fixed benchmark:** Dated completion records establish that the identified required training was completed for the reviewed personnel and period.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | Written entry/field/recurring training requirements and an agency-reported audit are retained, but dated roster-linked completion records and the underlying audit are not. Do not translate the old written-requirements points into completion credit. [S12,S16,S19,S31]

## S2 - Supervisory review and correction - Unknown

**Fixed benchmark:** Documented supervisory review identifies relevant issues and completes required corrective follow-through.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | No completed supervisory review with identified issues, assigned corrections and completed follow-through is retained. Accreditation does not establish these steps. [S09,S19]

Unknown means insufficient assessable evidence, not failure or a clean record. Publication findings do not establish operational implementation. The complete fixed anchors are published in the site methodology.

# Service and communication

Fixed weight: 10/100. Assessed: 1/2 checks; 50% category coverage. Earned/assessed: 5/5. Category score: 100.0.

## P1 - Assistance and victim/crisis response - Unknown

**Fixed benchmark:** A documented assistance/victim/crisis episode meets the applicable response and follow-through benchmark.

**Scope / rationale:** Bentonville Police Department, Arkansas; historical conduct record 2025-01-01 through 2026-10-04; publication checks explicitly dated 2026-10-13. | Favorable escort and ride-along accounts establish reported service and opinions, but do not provide the defined response duties and complete follow-through needed to rate a service episode. The cyclist case remains preliminary. [S20,S29,S30]

## P2 - Public access and communication - 4/4; 5/5 weight points

**Fixed benchmark:** A bounded reviewed police-service publication set supplies usable contact and routing information.

**Scope / rationale:** Bounded public service set: Contact Us, Traffic Enforcement Request and Vacation House Watch pages, read 2026-10-13. No form submitted. | All four components are present across this bounded public set. Assistance wording credits a published service route, not actual patrol performance. The complaint-result timetable is not reused for P2. [S40,S41]

**Distinct observations:** 1

**bentonville-service-publication-2026-10-13 | 2026-10-13 | 4/4 [S40,S41]**

**TCF editorial expectation:** A bounded reviewed police-service publication set supplies usable contact and routing information.

**Assessment:** All four components are present across this bounded public set. Assistance wording credits a published service route, not actual patrol performance. The complaint-result timetable is not reused for P2.

**Locator:** S37 Contact Us; S41 written service form and Contact Us; S40 Vacation Check Request instructions

# Findings & outcomes

## 1. Epperly termination reported; underlying allegations unresolved

**EMPLOYMENT ACTION** | 2025-08-15 | [S07]

The Kansas City Star reported on August 28 that Chief Ray Shastid confirmed Dustin Epperly's August 15 firing following an alleged July 10 geese shooting in Rogers. Municipal citations were reported. The final reasoned discipline record, appeal, final criminal disposition and final CLEST order were not obtained.

**Scope:** Reported employment action only; citation is not conviction and the allegations are not treated as sustained findings.

## 2. Crum v. Reinhardt qualified-immunity dismissal

**COURT DECISION** | 2026-06-18 | [S08]

The federal court granted Officer Quinton Reinhardt summary judgment on qualified immunity and dismissed with prejudice. The plaintiff challenged a urine sample during a DWI investigation. The court held the asserted right was not clearly established, assuming the underlying constitutional question for its analysis. Later appellate activity was not verified.

**Scope:** One officer, one disputed search and this district-court order; neither misconduct nor broad constitutional compliance established.

## 3. Seven 2025 sustained entries — BECC only

**SUSTAINED ADMINISTRATIVE FINDING** | 2025 reporting year | [S11,S38]

The 2025 city-posted BECC summary lists seven internal complaints and zero citizen complaints, with all seven marked sustained. It does not state conduct narratives, sanctions, appeals or unique employee counts. The same one-page reporting content was rechecked October 13, 2026.

**Scope:** Bentonville Emergency Communications Center members only; not sworn-patrol or department-wide complaint totals.

## 4. Law-enforcement and communications accreditation confirmed

**ACCREDITATION** | 2026-03-14 | [S09]

CALEA's March 17, 2026 awards announcement lists Bentonville in both law-enforcement and communications accreditation for the March 14 awards. This verifies accreditation, without establishing individual-incident findings or the absence of misconduct.

**Scope:** Independent accreditation context; no automatic operational credit.

## 5. Published safeguards and agency-reported training audit

**AGENCY STATEMENT** | Undated; retained rechecks 2026-10-05 | [S10,S12,S16,S19,S31]

The city publishes anonymous complaint procedures and disposition definitions and reports a successful CLEST personnel/training-records audit. APCO lists the communications training program. The audit, staff denominator and roster-linked completions were not obtained; written requirements and course hosting are not completions.

**Scope:** Published process, city-reported audit and communications accreditation distinguished.

## 6. Haro v. Shastid — order concerned crime-lab director Brown

**COURT DECISION** | 2025-12-18 | [S13]

The order granted qualified immunity to crime-lab director Theodore Brown and its operative conclusion dismissed Brown claims with prejudice. Claims against Shastid and Esterline remained live at that order. The

introductory paragraph says without prejudice; the saved report follows the operative conclusion. Later disposition was not verified.

**Scope:** Brown's actions are not attributed as a final merits finding against Bentonville officers.

### 7. Rubio v. Davis — procedural docket only

**OTHER VERIFIED CONTEXT** | 2026-03-12 | [S14]

The public docket mirror records a civil-rights filing on March 12, an April 27 answer and scheduling through its August 24, 2026 snapshot. The complaint, evidentiary record and later activity were not obtained; no allegations are restated or scored.

**Scope:** Litigation existence only; no merits finding.

### 8. Patrol-vehicle collision investigation unresolved

**ALLEGATION** | 2026-05-11 | [S20]

May 12 KNWA/KFTA reporting reproduced by AOL, attributed to a police release, said a patrol vehicle struck a cyclist in a crosswalk and Arkansas State Police was investigating. The article reported a pedestrian crossing signal. Final crash findings, citation decision and discipline were not obtained.

**Scope:** Reported incident and investigation, not a final fault or misconduct determination.

These are occurrence dates, not complaint-receipt or closure dates.

**Scope:** Communications-center summary table; no inference of unique employees or investigation timeliness.

### 11. ALPR archive records require authentication and version resolution

**OTHER VERIFIED CONTEXT** | 2026-08-14 / 2026-08-17 | [S26,S27,S28]

The citizen archive identifies an August 14 directive as signed and an August 25 email forwarding an August 17 draft. Retained August 14 text describes interim ALPR procedures. The draft includes a 150-day retention ceiling with investigation exception, six-month public statistics and 18-month preservation of those statistics. Complete signed images/signature and current city production were not independently verified. Archive analysis of searches and permissions was not recomputed.

**Scope:** Version-limited leads, not verified current operational policy, configuration, unlawful-search finding or IA adjudication.

### 12. Ride-along appreciation and foster-care awareness escort

**OTHER VERIFIED CONTEXT** | 2026-04-08 event; publication dates unresolved | [S29,S30]

## THE CONDUCT FILE / DRAFT SOURCE NOTES

**Scope:** Favorable evaluations and organizer account; not a representative survey or scored service outcome.

**Current index: NR.** No new comment collection was performed for this migration. The new calculation contains no reconstructed comment rows; it does not erase the earlier review counts below.

**Earlier edition sample (not recollected or rescored):** 104 reviewed; 4 eligible. Original cutoff 2026-10-04. Historical index: NR.

Historical report result NR. Counts copied from saved PDF pp.12-14; raw comment records unavailable. Preserve these counts separately; do not fabricate 104 comment rows or treat the unscored qualitative leads as eligible.

**Collection rule:** Original rule preserved: review Jan.1, 2025–Oct.4, 2026 explicit Bentonville evaluations from supportive, critical and mixed sources; newest-first YouTube capture up to 100/video, no like threshold, deduplicate latest eligible substantive account-platform evaluation and exclude creators, unclear target/context, unrelated and out-of-period material.

**Coverage:** Archived report documents 104 comments/replies reviewed, 4 eligible (2 positive, 0 mixed, 2 negative), 1 held, 99 excluded; four retained accounts across three videos from two independent YouTube channels. Raw source comment records were not available in this migration. comments is deliberately empty, not a claim that zero comments were historically reviewed. No comments were recollected or invented.

NR reason: Fewer than 30 eligible account-platform entries

NR reason: Fewer than three distinct post discussions

NR reason: Fewer than two independent publishing sources

NR reason: Collection reliability review incomplete

NR reason: Archived sample was below 30 eligible entries; raw records are unavailable for a new reproducible calculation.

Minimum: 30 eligible account-platform units, three distinct post discussions, two independent publishing sources, and completed reliability review. Formula:  $1 + 99 \times (\text{positive} + 0.5 \times \text{mixed}) / N$ , rounded half up. The minimum is an editorial coverage rule, not a statistical guarantee. This convenience sample is not a resident-trust percentage. Only the latest eligible substantive evaluation per account-platform counts; mixed requires both favorable and unfavorable evaluation in that retained comment. Account identity is not inferred across platforms. Views, likes and shares do not count.
