THE RECORD SO FAR

1. PUBLIC CONTACT • OCT. 13, 2026 [S16]

Official page supplies phone, mail, 911 and email routes; service assistance or a response timetable is not stated.

2. CHARGES • NOV. 26, 2025 [S01]

AG announced charges against three personnel; allegations are not guilt. Final criminal dispositions remain unverified.

3. CIVIL DOCKET • JULY 21, 2026 [S03,S04]

Brewer alleges retaliatory arrest. The archived docket records procedure through July 21; no merits judgment verified.

4. AUDIT STATUS • OCT. 4, 2026 [S05,S06]

County audit was in progress at the October 4 review; an audit opening is not a final adverse finding.

AGENCY RESPONSE

No TCF response request; Hogan's Nov. 26, 2025 statement is attributed in the notes.

Scope & scoring

Shannon County Sheriff's Office, Missouri

Agency: Shannon County Sheriff's Office. Review: 2025-01-01 to 2026-10-13. Generated: 2026-10-13.

Official site: <https://www.shannoncounty.gov/sheriff/>. ORI: MO1020000.

TCF score: 75.0/100. Evidence coverage: 5% (1/20 standards). Public sentiment: NR.

TCF Available-Record Grade 1.0 | C - 75.0/100

PROVISIONAL - LIMITED RECORD

PUBLIC INFORMATION / PROCESS ONLY. CONDUCT NOT ASSESSED.

The grade describes only the evidence actually assessed against the fixed checks. It does not estimate overall police quality, the share of officers acting properly, resident trust, or future misconduct. Coverage measures assessed rubric weight, not the percentage of incidents or personnel reviewed. These editorial choices have not been statistically validated.

There is no minimum overall/category coverage or incident count for this limited grade. Each observation still needs sufficient evidence. With no assessable check the result is NR. Unknown checks earn no credit and no penalty; a zero rating is assessed and stays in the denominator. A department duty inapplicable to one event remains Unknown unless other evidence supports assessment.

The 20 fixed checks each weigh 5 points. Average distinct event observations within each outcome check; use one current snapshot for each publication check. $\text{Earned weight} = \text{sum}(5 \times \text{check rating} / 4)$. $\text{Score} = 100 \times \text{earned weight} / \text{assessed weight}$. $\text{Coverage} = \text{assessed weight} / 100 \times 100$. Do not average category percentages equally or count multiple articles as separate incidents.

Calculation: $100 \times 3.75 / 5 = 75.0$. 1/20 checks; 5% rubric coverage.

Use the unrounded score for the letter: A ≥ 90 , B ≥ 80 , C ≥ 70 , D ≥ 60 , F < 60 . Display one decimal, adding precision at a boundary so rounding never promotes a grade. With partial evidence the assessed checks determine the effective mix; each assessed check carries 100.00% of this headline result.

Assessed categories: Service and communication

Unassessed categories: Conduct, force and custody, Accountability, Transparency, Training and supervision

Do not rank departments whose grades cover different checks or sampling frames. A direct comparison needs shared checks and comparable periods, with remaining sampling differences disclosed. A change after regrading or added evidence is not proof of changed department behavior. Prior editions remain archived.

Revision history: Authorized archive regrade generated 2026-10-13 from the October 4, 2026 saved Method v1.2 report. Historical findings, staffing/budget/crime context and original retrieval dates retain the October 4 cutoff. A narrow October 13 official sheriff contact-page refresh supplies a separately dated P2 publication observation. No new event, case-outcome or social-comment investigation was conducted. The original full raw comment audit was not available; its published counts and provisional index are preserved only as archived context.

Selection and evidence limits

Population: The saved October 4, 2026 public-source desk review of Shannon County Sheriff's Office records for January 1, 2025 through October 4, 2026, plus one separately dated October 13 official contact-page snapshot.

Selection: The archive documents agency/sheriff-name web searches, court and audit leads, favorable training/service reporting, adverse allegations and budget/force reporting. Social discovery included reviews, recommendations, support, criticism, Reddit, Facebook and a YouTube search with a support follow-up. It did not

retain a predeclared operational-event sampling frame. Migration retains every material archived context item and assigns points only to the newly read bounded official contact page.

Limits: No complete operational sample, closed complaint files, final force review or current merits outcomes were obtained. The original archive lacks a complete raw researcher dataset. The only assessed unit is a contact-publication snapshot; its grade cannot describe the office's conduct or all services.

Agency response

No response or records request was sent for the archived review or migration. In a November 26, 2025 public statement reproduced by Ozark Radio News, Sheriff Hogan said the office cooperated with MSHP and continued serving the community. That statement is not an independent cooperation finding or a response to TCF.

Limitations

- TCF Available-Record Grade 1.0 is an editorial assessment of the cited assessable record, not a validated measure of overall department quality. Unknown checks earn neither credit nor penalty. Coverage measures rubric weight, not the fraction of officers or incidents reviewed.
- Historical operational cutoff October 4, 2026; the October 13 refresh is confined to an official contact page. Staffing, budget, crime and case status were not refreshed.
- Only P2 is assessed. The contact-publication grade cannot be interpreted as a conduct, training, accountability or overall agency grade.
- The saved archive lacks the full raw researcher and comment dataset. Published source links, counts, caveats and paraphrased findings are preserved without inventing comment records.
- The general contact email is not treated as an established citizen misconduct-complaint system.
- Two budget figures are attributed and unreconciled. FBI full-time staffing does not establish reserves or current filled positions.
- No response or records request was sent. Allegations, agency assertions and audit openings are not final adverse findings.

Conduct, force and custody

Fixed weight: 35/100. Assessed: 0/7 checks; 0% category coverage. Earned/assessed: 0/0. Category score: NR.

C1 - Stops and searches - Unknown

Fixed benchmark: A documented stop or search complies with its applicable authority and scope.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | No complete stop/search record or merits finding was obtained. Civil allegations and incident commentary do not establish lawful or unlawful conduct. [S03,S04]

C2 - Arrests and detention - Unknown

Fixed benchmark: A documented arrest or detention has the required basis, duration and process.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | Retaliatory-arrest allegations and procedural docket activity do not establish the merits, basis, duration or process of a detention. [S03,S04]

C3 - Force justification and proportionality - Unknown

Fixed benchmark: A documented use of force meets the applicable necessity and proportionality benchmark.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | A May shooting referral was reported, but force reports, complete circumstances and final review findings were not obtained. [S08]

C4 - Restraint and de-escalation conduct - Unknown

Fixed benchmark: A documented encounter follows applicable restraint, intervention and de-escalation requirements in its actual circumstances.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | No complete encounter record and applicable restraint/de-escalation finding; video commentary is not conduct evidence. [S08]

C5 - Custody and medical care - Unknown

Fixed benchmark: A documented custody or medical-care episode meets the applicable safety and care duties.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | No complete custody or medical-care record with applicable duty and outcome was retained.

C6 - Equal treatment - Unknown

Fixed benchmark: A documented service or enforcement decision meets the applicable nondiscrimination/equal-treatment benchmark.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | Announced criminal charges and civil allegations do not establish an equal-treatment merits finding. [S01,S03,S04]

C7 - Report and evidence integrity - Unknown

Fixed benchmark: A documented reporting/evidence episode meets accuracy, preservation and disclosure duties.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | Forgery was among announced allegations, but no authenticated final integrity finding or disposition was obtained. [S01]

Unknown means insufficient assessable evidence, not failure or a clean record. Publication findings do not establish operational implementation. The complete fixed anchors are published in the site methodology.

Accountability

Fixed weight: 25/100. Assessed: 0/5 checks; 0% category coverage. Earned/assessed: 0/0. Category score: NR.

A1 - Complaint intake access - Unknown

Fixed benchmark: Published complaint intake is usable for its explicitly identified audience.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | No bounded readable misconduct-complaint procedure was retained. A general sheriff email is not an expressly identified complaint route. [S16]

A2 - Investigation quality - Unknown

Fixed benchmark: A completed documented investigation addresses the material evidence, competing accounts and relevant issues.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | Charging and referral announcements are not a completed investigative record addressing evidence and competing accounts. [S01,S08]

A3 - Supported findings and explanations - Unknown

Fixed benchmark: A completed finding gives a reasoned conclusion supported by the reviewed evidence.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | No complete final administrative finding or merits ruling was obtained; charging actions and procedural docket entries are insufficient. [S01,S03,S04]

A4 - Corrective action and follow-through - Unknown

Fixed benchmark: Documented corrective action appropriate to an established issue is completed and followed up.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | No substantiated issue and verified completed appropriate correction/follow-up were retained. Audit opening and technology adoption do not establish correction. [S05,S06,S09]

A5 - Cooperation with external oversight - Unknown

Fixed benchmark: A documented oversight episode shows compliance with the applicable oversight requests and requirements.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | Sheriff's statement of cooperation and a reported referral were not independently substantiated against an applicable oversight request or requirement. [S02,S08]

Unknown means insufficient assessable evidence, not failure or a clean record. Publication findings do not establish operational implementation. The complete fixed anchors are published in the site methodology.

Transparency

Fixed weight: 20/100. Assessed: 0/4 checks; 0% category coverage. Earned/assessed: 0/0. Category score: NR.

T1 - Policy publication - Unknown

Fixed benchmark: A bounded reviewed public operational-policy set meets the publication components.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | The saved review did not obtain a complete readable operational-policy set; no publication failure is inferred from missing research.

T2 - Complaint and force outcome disclosure - Unknown

Fixed benchmark: A bounded reviewed public outcome-reporting set meets the disclosure components.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | No bounded readable complaint/force outcome report was retained. Crime counts do not establish complaint/force outcome disclosure. [S12,S13]

T3 - Budget and staffing disclosure - Unknown

Fixed benchmark: A bounded reviewed budget/personnel publication set meets the disclosure components.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | Original adopted police budget and current roster were not obtained. Attributed competing budget figures and a full-time FBI return are not a sufficiently readable bounded budget/personnel set for component scoring. [S10,S11,S14,S15]

T4 - Handling documented records requests - Unknown

Fixed benchmark: An actual documented request is handled accurately under the applicable scope, deadlines and disclosure/exemption duties.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | No actual records-request/response unit, response log or retention audit was obtained; no request was sent by TCF.

Unknown means insufficient assessable evidence, not failure or a clean record. Publication findings do not establish operational implementation. The complete fixed anchors are published in the site methodology.

Training and supervision

Fixed weight: 10/100. Assessed: 0/2 checks; 0% category coverage. Earned/assessed: 0/0. Category score: NR.

S1 - Required-training completion - Unknown

Fixed benchmark: Dated completion records establish that the identified required training was completed for the reviewed personnel and period.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | One reported academy graduation is not a roster-linked completion record establishing identified training requirements and period. [S07]

S2 - Supervisory review and correction - Unknown

Fixed benchmark: Documented supervisory review identifies relevant issues and completes required corrective follow-through.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | No completed supervisory review or audit with corrective follow-through was obtained.

Unknown means insufficient assessable evidence, not failure or a clean record. Publication findings do not establish operational implementation. The complete fixed anchors are published in the site methodology.

Service and communication

Fixed weight: 10/100. Assessed: 1/2 checks; 50% category coverage. Earned/assessed: 3.75/5. Category score: 75.0.

P1 - Assistance and victim/crisis response - Unknown

Fixed benchmark: A documented assistance/victim/crisis episode meets the applicable response and follow-through benchmark.

Scope / rationale: Archived operational record through October 4, 2026; only P2 contact publication refreshed October 13, 2026. | Mapping adoption and general continued-service statements do not establish an assistance/victim/crisis response outcome. [S02,S09]

P2 - Public access and communication - 3/4; 3.75/5 weight points

Fixed benchmark: A bounded reviewed police-service publication set supplies usable contact and routing information.

Scope / rationale: One official county sheriff contact page, read October 13, 2026; publication only, not actual service or response quality. | Three of four fixed contact-publication components are supplied. The readable bounded page supplies phone/mail location, emergency routing and a written sheriff route, but no police-service assistance or escalation/response timetable. This is not an assertion that assistance is unavailable elsewhere. [S16]

Distinct observations: 1

shannon-official-contact-publication-2026-10-13 | 2026-10-13 | 3/4 [S16]

TCF editorial expectation: A bounded reviewed police-service publication set supplies usable contact and routing information.

Assessment: Three of four fixed contact-publication components are supplied. The readable bounded page supplies phone/mail location, emergency routing and a written sheriff route, but no police-service assistance or escalation/response timetable. This is not an assertion that assistance is unavailable elsewhere.

Locator: S16 entire page: lines 3-4 mailing address, lines 6-9 emergency/non-emergency routing, line 11 email; remaining lines identify staff.

Publication component	Met	Reviewed evidence
Published police contact phone and physical/mail location, with route purpose identified	Yes	PO Box 880, Eminence MO 65466 is published with a labeled non-emergency phone (573) 226-3117 ext. 8.
Emergency/after-hours routing	Yes	The page explicitly lists emergency routes 911 or (573) 226-3615.
Published written police or public-record route	Yes	The official sheriff email sheriffhogan@shannoncounty.gov supplies a written police route; responsiveness was not tested.
Police-service assistance or escalation/response timetable	No	The complete readable page gives contact/staff information but no police-service assistance arrangement, escalation route or response timetable.

Unknown means insufficient assessable evidence, not failure or a clean record. Publication findings do not establish operational implementation. The complete fixed anchors are published in the site methodology.

Staffing, budget & crime context

Full-time sworn

8 in the 2025 FBI return, including sworn command staff; current 2026 roster unverified. [S11,S15]

Reserve officers

NR — full-time FBI series does not establish reserves; current roster not obtained. [S11,S15]

Annual operating budget

2026 operations \$338,137.51 as attributed to Sheriff Hogan; original adopted budget not obtained. [S14]

Separate county suit figure \$301,046.23 law-enforcement appropriation remains unreconciled (S10); do not add or interchange. Budgeted deputy positions are not actual staffing.

Full-time civilian

5 in the 2025 FBI employee return (2 male, 3 female); distinct from sworn. [S11]

FBI UCR

2025: 15 violent and 19 property offenses, 12 populated months. January-April 2026: 5 violent and 0 property; May-September null/missing. [S12,S13]

ORI MO1020000, served population 5,180; monthly actuals summed, not rates. API refresh September 15, 2026; original retrieval October 4. Clearances: 2025 6 violent/2 property; 2026 January-April 1 violent/0 property. Clearances are not convictions or same-year solve rates.

Keep authorized and filled positions separate. Distinguish sworn and civilian personnel and dispatch scope. Identify adopted budgets versus actual spending and capital. Missing crime months are not zero. Partial-year counts are not compared directly with complete years. Crime is reported community activity, not a misconduct measure.

Findings & outcomes

1. Official sheriff contact routes

TCF EVIDENCE ASSESSMENT | 2026-10-13 | [S16]

The readable official county page supplies phone/mail contact, emergency routing and a written sheriff email. It gives no police-service assistance or escalation/response timetable. This is one contact-publication observation; actual responsiveness is untested.

Scope: Narrow October 13 publication refresh.

2. Criminal allegations against three personnel

ALLEGATION | 2025-11-26 | [S01]

The Attorney General announced charges concerning alleged sexual offenses and forgery. The announcement verifies charging, not guilt; no later criminal disposition was verified at the archived cutoff.

Scope: Allegations remain distinct from final findings.

3. Brewer v. Hogan procedural record

OTHER VERIFIED CONTEXT | 2026-07-21 | [S03,S04]

Brewer alleges a retaliatory arrest. The mirror lists a June 16 motion to dismiss and July 21 reassignment with displayed cutoff July 21. Current docket and motion contents were not obtained; no merits judgment verified.

Scope: Procedural docket and reported allegation; historical cutoff retained.

4. County audit listed in progress

OTHER VERIFIED CONTEXT | 2026-10-04 | [S05,S06]

The State Auditor announced a county performance audit October 10, 2025 and listed it in progress at the archived October 4 review. Audit opening is not a final adverse finding.

Scope: County scope; no current sheriff's-office grade inferred.

5. Academy graduation and mapping adoption

AGENCY STATEMENT | 2026-05-11 | [S07,S09]

A reproduced agency announcement identifies Deputy Sam Cummins as a Drury academy graduate. March 28 reporting describes EDGE mapping adoption. These favorable developments do not establish office-wide training compliance or response improvement.

Scope: Positive context with implementation/outcome limits.

6. May 25 shooting referral

OTHER VERIFIED CONTEXT | 2026-05-28 | [S08]

Reporting described MSHP investigating a May 25 shooting at the sheriff's request. Complete force reports and final independent review were not obtained.

Scope: Reported referral, not a force conclusion.

7. Competing county and sheriff budget positions

ALLEGATION | 2026-06-12 | [S10,S14]

June reports describe county spending litigation and Hogan's position that budget cuts affected operations. The reported \$301,046.23 appropriation and \$338,137.51 operations figure are unreconciled. No dispute merits ruling was reviewed.

Scope: Attributed fiscal dispute, not an adjudicated misconduct finding.

8. Sheriff statement of cooperation

AGENCY STATEMENT | 2025-11-26 | [S02]

Hogan said the office cooperated with the Highway Patrol and continued serving the community. No independent cooperation assessment or completed internal review was obtained.

Scope: Public statement, not a response to TCF or verified oversight compliance.

Public sentiment & audit

Current index: NR. No new comment collection was performed for this migration. The new calculation contains no reconstructed comment rows; it does not erase the earlier review counts below.

Earlier edition sample (not recollected or rescored): 73 reviewed; 37 eligible. Original cutoff 2026-10-04. Historical index: 6/100.

Historical provisional YouTube-only index reported in the saved PDF, not a current department-wide sentiment score. Four scored videos cover one March 2025 park-ranger confrontation. Raw comments/account mappings not available; one creator opinion was included and no bot/coordination verification was performed. Current sentiment remains NR. The archived sensitivity excluding two implicit supportive entries yielded 1/100.

Collection rule: Archived rule: agency/sheriff-name discovery, supportive and critical leads, YouTube newest-first with no like filter, up to 100 threads/video and latest eligible substantive account entry. The migration does not reconstruct a new sample from paraphrases.

Coverage: Current sentiment NR. The saved October 4 PDF reports 73 YouTube comments/replies reviewed, 37 retained account entries (2 supportive, 0 mixed, 35 negative), four scored videos/channels and one incident; a fifth video supplied no eligible entries. Raw original text/account mappings were not available for migration. The archive included one creator's opinion, and coordination was not verified. Its provisional 6/100 index is historical only, not reissued as a current score.

NR reason: Fewer than 30 eligible account-platform entries

NR reason: Fewer than three distinct post discussions

NR reason: Fewer than two independent publishing sources

NR reason: Collection reliability review incomplete

NR reason: The historical raw sample is not reproducible under the current protocol; creator eligibility and reliability cannot be revalidated. No new eligible comment records were collected.

Minimum: 30 eligible account-platform units, three distinct post discussions, two independent publishing sources, and completed reliability review. Formula: $1 + 99 \times (\text{positive} + 0.5 \times \text{mixed}) / N$, rounded half up. The minimum is an editorial coverage rule, not a statistical guarantee. This convenience sample is not a resident-trust percentage. Only the latest eligible substantive evaluation per account-platform counts; mixed requires both favorable and unfavorable evaluation in that retained comment. Account identity is not inferred across platforms. Views, likes and shares do not count.
